

MUNICIPALITY OF POWASSAN
ADDENDUM NO. 2

Tender No.: 2026-04

Project: Asphalt Milling and Paving – Clark Street

Date: June 26, 2026

This Addendum forms part of the Contract Documents and shall be acknowledged by all bidders. Failure to acknowledge receipt of this Addendum may result in disqualification of the tender submission.

ITEM 1 – MUNICIPAL CONTINGENCY ALLOWANCE

The Municipality advises bidders that an allowance of approximately \$20,000 has been identified within the project budget for contingency work that may be required during construction.

Any contingency work shall only be undertaken upon written authorization by the Municipality and shall be paid using the applicable tendered unit prices contained in the Schedule of Prices.

The contingency allowance:

- is not a guaranteed amount of work
- does not form part of the Base Tender quantities
- may be used for provisional base repairs or other unforeseen work permitted under the Contract Documents
- may be used in whole, in part, or not at all, at the sole discretion of the Municipality

Bidders shall prepare their tenders based solely on the Contract Documents and shall not assume that any portion of the contingency allowance will be expended.

End of Addendum No. 2
