RE: Opinion of Value: Lot 15 Part1 Big Bend Ave/McRae, Powassan, ON

In accordance with your request for an **"Opinion of Value"** of the above described property, divided into 8 lots, I conducted a thorough personal inspection of the property. I also conducted a careful market comparison of similar properties in the area that have sold recently. Due consideration was given to all forces and factors that influence property values in the subject area.

The purpose of this inspection was to estimate the **"market value"** of the subject property as of this date, October 12, 2018. **"Market value"** is defined as the highest price, in terms of money, which the property will bring to a willing seller if exposed for sale in the open market, allowing reasonable time to find a willing purchaser, buying with the knowledge of all the uses to which it is adapted and for which it is legally capable of being used and with **"neither party acting under necessity, compulsion or peculiar and special circumstances"**.

Based on all the research that I have conducted in this matter and my own day to day knowledge of the local market, I estimate the market value of the subject property to be between \$18,000 – \$20,000 for an unserviced lot, and between \$35,000 and \$40,000 for a fully serviced lot.

Yours truly,

**Re: Housing Project Services**

---

Antoine and I have looked into the cost of extending the current municipal services to the proposed housing development. Since there is currently a water main running along Big Bend Ave to our reservoir, there is no need to extend the existing water main.

As for our sanitary sewer system, we currently have a casing pipe running below the train tracks at South Street. We will be required to extend our current sanitary sewer an estimated 425 meters. The estimated cost to extend the sanitary sewer is \$535,400.06 (Please see page 2 of memorandum). A rough sketch can be found on page 3 of memorandum for an overview of the sanitary sewer extension.

Please note that this is a rough estimate and will be subject to change upon further evaluation, or during the design process.

I hope this information will assist in council's decision regarding the housing project on Big Bend Ave.

Regards,

Codey Munshaw

Looking at the designs from the water mains running along the same route, the sanitary sewer should have sufficient slope (the sanitary sewer will be running at the same depth/slope as the water main). So a pumping station should not be required.

## Take Action. Fight Breast Cancer

At the Canadian Cancer Society, the Pink In The Rink game is about more than just raising awareness of breast cancer, it's about taking action to save lives. Breast cancer touches the lives of so many people we love. Take action and join us on Saturday, November 17, 2018 at the Powassan Sportsplex for the 4<sup>th</sup> Annual Pink in the Rink game when the Powassan Voodoos host the Soo Eagles.

Pink in the Rink is a unique opportunity for the community to join together to celebrate cancer survivors, remember and honour loved ones lost to cancer and fight back against breast cancer.

## We want you on our team!

Thank you for being a leader in our community. We are hoping with your help we can create more and more survivors by raising the much needed dollars to fund life-saving research and provide services and programs for those facing breast cancer.

**We are offering you an opportunity to support Pink in the Rink as an official Jersey Sponsor.**

This year, we will be holding a silent auction where people bid on game-worn, pink jerseys. This can be very successful but does come with some expense. We are asking that you take action in our fight by sponsoring the cost of a jersey in order to maximize our net revenue. **The sponsorship fee is \$150.**

**As a Jersey Sponsor, you will receive the following recognition benefits:**

- Name on the back of special edition, pink jersey to be worn during game and sold through silent auction
- Social media recognition with both the Canadian Cancer Society and the Powassan Voodoos
- Name and logo on official silent auction bid sheet

Breast cancer is the most commonly diagnosed cancer in Canadian women. The fact is 1 in 9 Canadian women will develop breast cancer. But there is hope! Thanks to caring people and organizations like you, survival rates have increased drastically. Over the past 20 years, we have invested more than \$100 million in life-saving, breast cancer research. Today, over 88% of Canadian women diagnosed with breast cancer will survive. We will continue to fight until every single person survives! We need your help to keep fighting for our friends, our family and ourselves. Thank you for your consideration. If you have any questions, please do not hesitate to contact Karen McIsaac at 705-724-5160.
